

# LOL workstations

The workstations WS-01 and WS-02 can be freely used while being in the LOL.

If you are not here, and still want to use our computers, connect to them using our [LOLBot](#).

Once the computer has been waken up, you can use [AnyDesk](#) to remote control the computer.

AnyDesk Codes:

**WS-01:** 1 671 912 756

**WS-02:** 460 862 585

once you connect to any of these computers, you'll get asked for a password.

For both workstations, the password is **#lolab123#**

The user password for both computer is **lolab**

- [LOLbot](#) 
- [WOL configuration](#)

# LOLbot

Add the Telegram LOLbot to your Telegram:

[http://t.me/LivingObjects\\_bot](http://t.me/LivingObjects_bot)

if you type /help or /start in the chat you'll get instructions on how to use the bot

/wol01 will wake up Workstation 01

/wol02 will wake up Workstation 02

It can take up to **3 Minutes** until the workstation is awake - be patient, you'll be notified in Telegram

after you are done working, please put the workstation in sleep mode again - it will not happen automatically 

after you've successfully awoken the workstation, you can log in with Anydesk
