

# Installation

## Upscaling

<https://github.com/xinntao/Real-ESRGAN>

Download.

extract to Desktop.

rename it to upscale for convenience

in the folder called upscale make two folders 'input' and 'output'

put the images you want to upscale into input

## Upscaling instructions

1. open terminal

2. `cd Desktop`

3. `cd upscale`

4. `./realesrgan-ncnn-vulkan -i input -o output -n realesrgan-x4plus`
